

**Application by Existing  
Fellows  
to use publicly the appellation  
FRMetS**

Please complete and return this form to The Chief Executive, Royal Meteorological Society, 104 Oxford Road, Reading RG1 7LL.

To become a Fellow of the Society, normally some formal qualification and/or professional experience is required, eg an NVQ or a degree and at least five years experience in a field or fields directly relevant to the Mission of the Society. The Royal Charter states that the Society was established 'for the advancement of Meteorological Science'. Today the Society seeks to pursue this aim in conjunction with related sciences and through applications of meteorology contributing to social and economic well-being. Exceptionally, long experience and performance at a high professional level, suitably attested by peer review, can replace the requirement for a formal academic or vocational qualification.

**Academic Qualifications**

Degree	Main subject	University	Graduation Date	Thesis/Dissertation title (if applicable)

**Professional Qualifications**

	Date awarded	Employer
CMet		
NVQ4		

**Work Experience**

Between dates	Employer	Type and level of work

Additional information (if any) in support of the application may be attached to this form.

I am a Fellow of the Royal Meteorological Society and hereby apply for permission to use the appellation FRMetS as a public statement of professional competence.
