The Society, working with the Met Office, the University of Reading, the Institute of Physics and local schools, is running a twitter session on science careers to mark World Meteorological Day. We will answering questions on the physics of the environment and meteorology.

Using @rmets and #sciencecareers we will be tweeting on Thursday 20 March between 2pm and 4pm

We are delighted to welcome some great interviewees to our team, including Prof Iain Stewart, scientist and broadcaster, Prof Marshall Shepherd Director, Atmospheric Sciences Program, University of Georgia and ex President of the American Meteorological Society and academics from various universities. From industry we have experts, including Dominic Sindall, Head Catastrophe Risk Analyst at Faber Global Ltd and others. The Abbey School, Reading will also be taking part.

On the day of the session we will be posting questions and answers here on the site
