Pioneers into Practice

Pioneers into Practice is a two-month knowledge development and placement programme that brings together professionals from industry, small companies, universities, research institutes, local councils as well as non-profit and public organisations.

We take you out of your comfort zone and place you into new settings—with one placement in the West Midlands, one elsewhere in Europe, and a group project to work on in the meantime.
How Pioneers into Practice works

The first four-week placement takes place in the West Midlands. You will be given a project to work on by your host organisation, and they will benefit from your experience and expertise while you work.

Your second month—later in the year—takes place in one of our partner regions in Europe: Lower Silesia (Poland), Hessen (Germany), Valencia (Spain), Emilia Romagne (Italy) and Central Hungary.

In the meantime, you and your fellow Pioneers will work together on a group project, which we will support you to take further.

Visit www.innovationbham.com/climate-kic to apply.
