We are delighted to announce the launch of our new Accreditation and CPD System (ACCSYS) as a beta version.

**With ACCSYS, if you are a Society member, you can:**

Create CPD records, combine them into reports, print them for personal use or for an employer (All RMetS events can now be added as CPD by clicking on the "CREATE CPD RECORD FROM THIS EVENT" button on the event detail page).

Set goals and objectives for your professional development and add records of activity against these.

Apply for RMet accreditation.

Submit your required ongoing CPD report to the Society for an existing accreditation, whether CMet or RMet

Over the past months we have been developing this online system with help and lots of input both from members and the Accreditation Board. Although it has been extensively tested during development, it is a complex system and we hope that users will report any areas that may not seem clear, or any remaining bugs, which we will look at as soon as they are reported.

We will be continuing to develop this system and adding new features and functions such as CMet and FRMetS applications. Please let us know if there is a feature you would like to see included.

Please send any feedback about the system to administrator@rmets.org [1] and address any queries about accreditation to accreditation@rmets.org [2]
