

RMetsS
Royal Meteorological Society

2020 Vision

Our vision is to be a world-leading learned and professional Society for weather and climate, exemplifying our Royal Charter and charitable status and to engage, enthuse and educate all.

2018-2020 Strategic Plan Key Themes

Advance, apply and make accessible the science of meteorology

Increase awareness of the importance of weather and climate

Share our enthusiasm and enhance the lives of those interested in weather and climate

Support and develop meteorologists and climate scientists throughout their careers
