# Mentoring Scheme

Most of our members will recognise that others have had an impact on their careers, either informally or as formal mentors, at different stages of their lives. At the Royal Meteorological Society we recognise the wealth of expertise available across our membership and that there are a wide range of benefits associated with being involved in a mentoring scheme.

This might be because you seek advice and support at the early stages of your career, are considering moving between roles, or just because you can't find the right person within your own organisation.

Mentoring offers something unique to our members, with pairings drawn from across the Society.

# Mentoring Scheme

## Benefits

By being part of the Society's mentoring scheme, there are a wealth of benefits for both parties.

### For mentors:

Enhance your professional skills

Continuous Professional Development (CPD)

Support your profession

Reverse mentoring

### For mentees:

Gain knowledge

Overcome challenges

Develop your skills

Identify weaknesses

Career Support

## Mentoring Topics

Specific topics where mentoring could be useful include providing advice, feedback and support for:

Applying for a job and CV surgery

A second opinion or sounding board for ideas

Developing new skills

Gain access to networks or contacts

Support and advice

## Requirements & Structure

The mentoring scheme is only available to members of the Society

It is anticipated that most mentoring relationships will last for 6-12 months
