From hurricanes to fog – my journey as a meteorologist

Craig Poku
In the beginning … the year 2007
In the beginning … the year 2007

One way to end the summer …
However, earlier that year …

Waking up on a Thursday morning to this!
From school to Sixth Form

Interests in maths, physics and geography
School to Sixth Form
First experience with research
Current work – fog!

Understanding microphysical processes

Major disruptions – interactive system
Mostly in the office ...
The occasional field trip!
RMetS Student Conference

Committee for the last two years, met new people!
Where next?
Thank you
