

RMetsS Awards and Prizes for 2019

Call for Nominations/Applications

The Royal Meteorological Society recognises and rewards excellence, through its medals, awards and prizes, to people and teams who have made outstanding and exceptional contributions to meteorology and related disciplines.

The Society's awards reflect the breadth of work in the meteorological community and it can be one of the most rewarding activities to honour peers and colleagues for their contributions to the science and profession, and through education and outreach. There are awards that recognise distinguished careers, honour outstanding contributions and reward important and original contributions of early-career scientists.

Honorary Fellowship is limited to a small number of individuals and is the highest honour bestowed by the Society.
