# EARTH'S LAND MAMMALS BY WEIGHT

■ = 1,000,000 TONS

■ HUMANS   ■ OUR PETS AND LIVESTOCK   ■ WILD ANIMALS

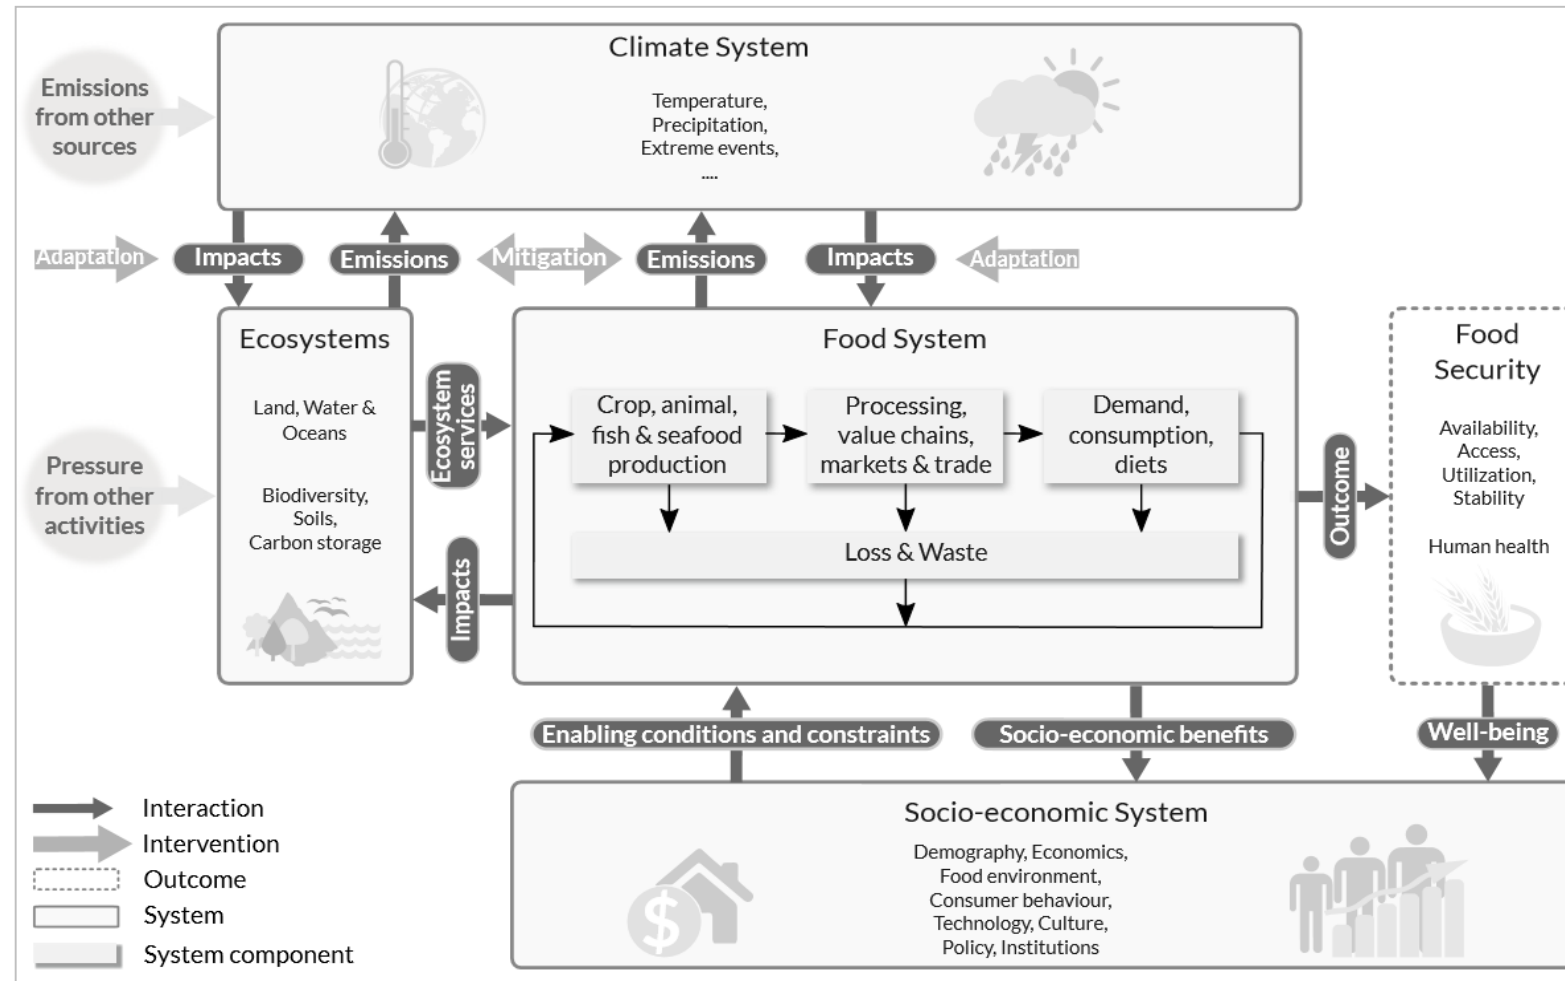

DATA FROM VACLAV SMIL'S *THE EARTH'S BIOSPHERE: EVOLUTION, DYNAMICS, AND CHANGE*, PLUS A FEW OTHER SOURCES.

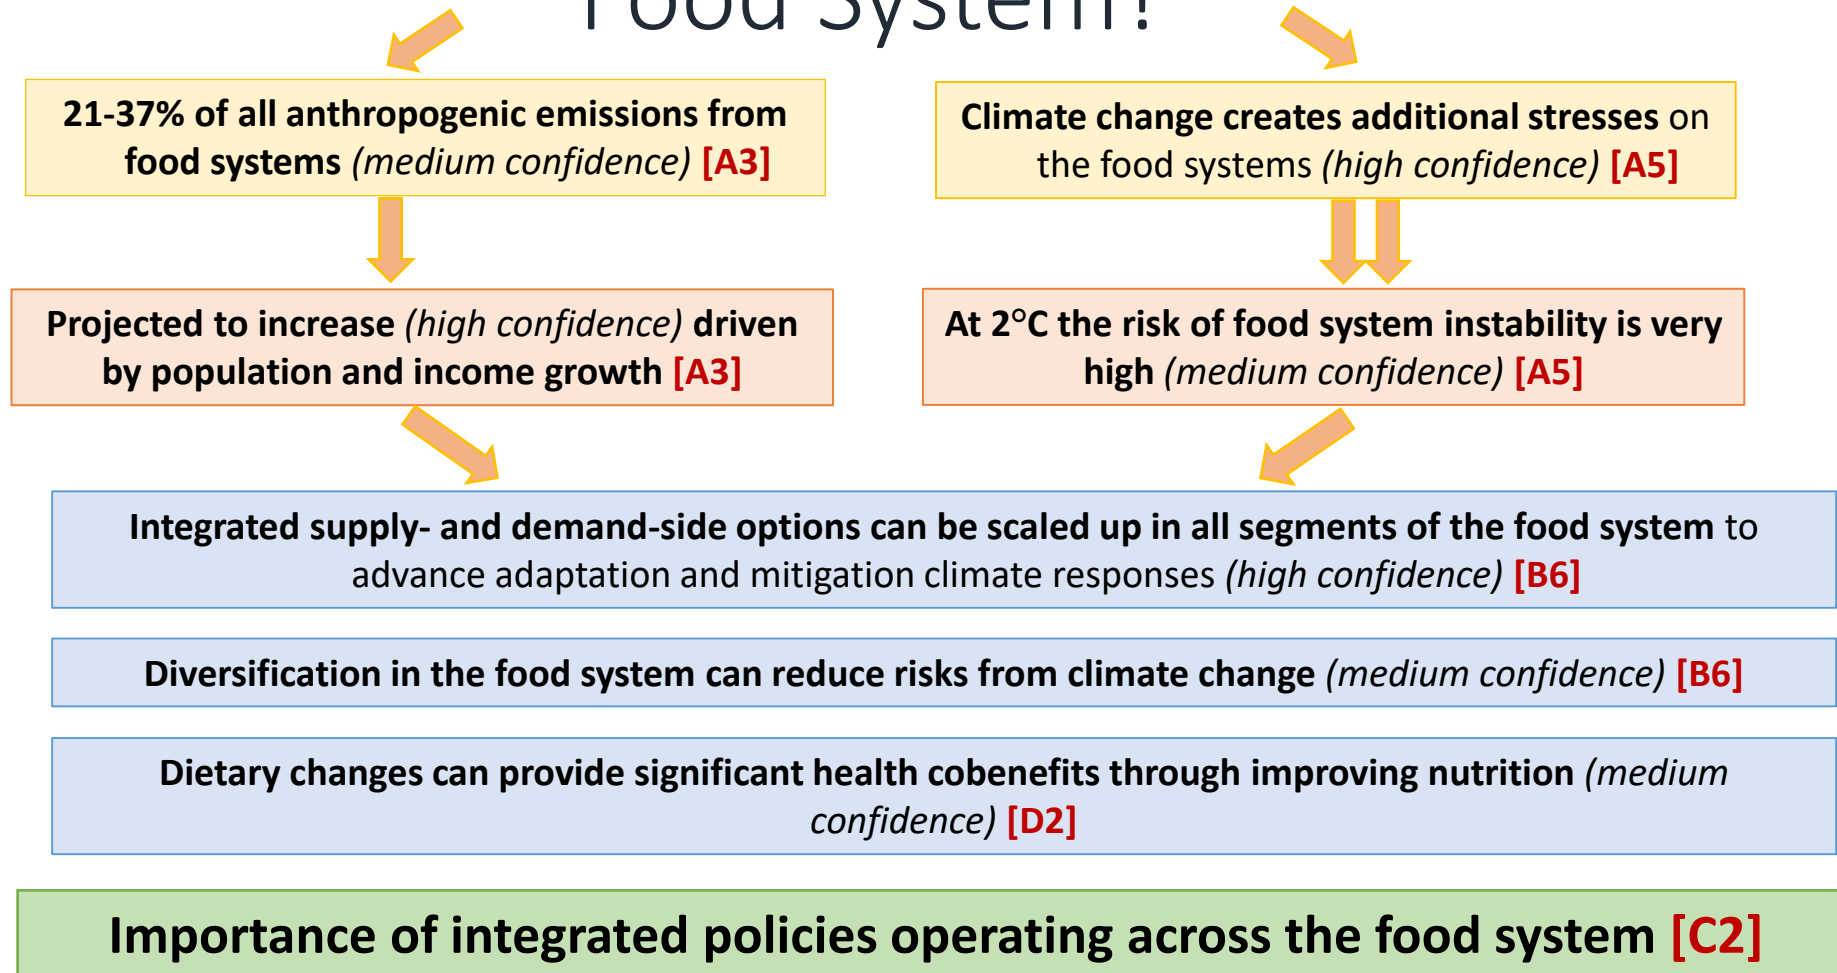

# IPCC Special Report on Climate Change and Land

# The Food System

# Why the Food System?

## Bréf til framtíðarinnar

Ok er fyrsti nafnkunni jökullinn til að missa titil sinn.  
Á næstu 200 árum er talið að allir jöklar landsins fari sömu leið.  
Þetta minnismerki er til vitnis um að við vitum  
hvað er að gerast og hvað þarf að gera.  
Aðeins þú veist hvort við gerðum eitthvað.

## A letter to the future

Ok is the first Icelandic glacier to lose its status as a glacier.  
In the next 200 years all our glaciers are expected to follow the same path.  
This monument is to acknowledge that we know  
what is happening and what needs to be done.  
Only you know if we did it.
