

Cancellation Policy for Atmospheric Science Conferences

If you cancel a registration 3 months before the start date of the conference, a full refund will be given. After this date, no refunds are available but substitutions for the conference may be made up to Friday 26th June 2020. All amendments and requests must be given in writing.

As this is a joint conference, all information will be shared between the Royal Meteorological Society and the National Centre for Atmospheric Science at the University of Leeds. For this reason, you may be contacted by either party throughout the registration process and after the conference.

All data will be shared between both companies only and no details will be shared or passed on to any 3rd party.

Please contact us to discuss your booking -
